

The Uinta & Wasatch/Cache National Forests had a busy year in 1995. The Forest Leadership established the Bonneville Cutthroat Trout surveys as one of two top priorities for the Forest. After intense negotiations with the forest staff and discussions with the Fish and Wildlife Service and the Bridger-Teton National Forest approximately \$40,000 was collected for the work. Because of the lack of having another biologist to do electrofishing, we modified the proposal to have one crew work on habitat inventories and a second crew work on electrofish. We also worked on the Bridger-Teton for two weeks collecting additional information on the Bonneville cutthroat trout.

Uinta & Wasatch/Cache National Forest had the following accomplishments for Bonneville cutthroat trout.

Miles of stream habitat surveyed: 44 miles

Acres Improved: 20

Structures: 50

Number of streams checked for species composition: 24 in Utah, 9 in Wyoming

External Partners: U.S. Fish and Wildlife Service, Utah Division of Wildlife Resources, Wyoming Department of Fish and Game, Idaho Department of Fish and Game, Bridger-Teton National Forest, Caribou National Forest, Cache Anglers

Internal Partners: Recreation, Minerals, Wildlife, Ecosystem Management, Range, Timber, Engineering, Administration

Volunteers: 50

PG 5 acres 12 structures

SF 34 structures, 14 acres, 40 volunteers

Heber 6 miles

Kamas (inland only) 20 structures

Logan 4 structures 1 acre 10 volunteers

Ogden survey only

Salt Lake survey only

The Uinta & Wasatch/Cache National Forest had the following accomplishments for Colorado cutthroat trout.

Miles of stream habitat surveyed: 4 miles

Acres Improved: 5

Structures: 4

Number of streams checked for species composition: 2

External Partners: Utah Division of Wildlife Resources

Internal Partners: Recreation, Minerals, Wildlife, Ecosystem Management, Range, Timber, Engineering, Administration

Spanish Fork 4 structures, 4 acres

Heber 1 acre

Evanston

Mt. View

The Uinta & Wasatch/Cache National Forest had the following accomplishments for Partnerships.

Miles of stream habitat surveyed: 43 miles

Acres Improved: 8

Structures: 36

National Fishing Week Events: 3

Number of streams checked for species composition: 24 in Utah, 9 in Wyoming

External Partners: U.S. Fish and Wildlife Service, Utah Division of Wildlife Resources, Wyoming Department of Fish and Game, Idaho Department of Fish and Game, Bridger-Teton National Forest, Caribou National Forest, Cache Anglers
